

Take and Make: Blooming Bouquet

Join us **LIVE** at **2pm**,
Wednesday, August 26 and
follow along with the items in
your Take and Make kit!

Follow the link at
www.osceolalibrary.org/virtual-programs

Take and Make Kit Includes:

- 2 Petal Templates
- 1 Sheet of Crepe Paper
- 1 Floral Wire Stem
- 1 Roll of Floral Tape

Additional Materials Needed:

- Scissors
- Ruler
- Glue Stick
- Pencil

1. Cut out four tear drop-shaped petals and six heart-shaped petals using the templates included.
2. Gently stretch each petal in the middle. After you have stretched each petal use a pencil to curl the edges of each petal.
3. Fold your stem in half and wrap it with floral tape to reinforce the stem.
4. Begin taping the petals to your stem, starting with the tear drop-shaped petals.
5. After you have arranged your tear drop-shaped petals, tape the heart-shaped petals to the stem.
6. Once you have all your petals on the stem add floral tape in areas where your petals need more support or where you need some final touches.

Tip: you can add a little bit of glue to the end of your floral tape if it is having trouble sticking
